

Spect*(i)*cle®

FALL 2015
FLORIDA ZONE
LAWN CARE

For use within shaded region

Specticle® is a pre-emergent unlike any other and our **Poa Promise*** proves it. When you use Specticle, we promise you will see effective weed control. Our programs allow you increased flexibility. Choose from the programs below that best fit your fall application needs.

Specticle delivers key benefits for fall weed control solutions:

- Provides flexibility with a wide pre-emergent application window – **up to 6 weeks**
- Long residual control of *Poa annua* – **up to 7 months**
- Applicator-friendly formulation options that can easily be applied with little odor, non-staining and no signal word required

Pre-Emergent-Only Programs

For optimal results, follow the **Poa** timing as outlined below. There will be no need to tank mix a post-emergent herbicide with Specticle unless following Program 3 timing.

POA+ PROMISE*

Bayer promises effective control of **Poa** or we will supply you with the additional Bayer product to give you effective control.

Pre + Post-Emergent Program

Applications of Specticle after November 15 require a post-emergent tank-mix partner to obtain control of weeds.

PROGRAM 1 - St. Augustine/Centipede	PROGRAM 2 - St. Augustine/Centipede	PROGRAM 3 - Pre/Post
Control of Poa through March	Control of Poa through March	Control of labelled weeds through April
SPECTICLE FLO 6 fl oz/A Apply Sept 15 through Nov 15	SPECTICLE FLO 3 fl oz/A Apply Sept 15 through Oct 31	SPECTICLE FLO 6 fl oz/A Apply Nov 15 through Dec 31 with CELSIUS® 3.7 oz/A**
	SPECTICLE FLO 3 fl oz/A Apply 30-45 days after first application	

*Poa Promise is only valid for weeds on the respective labels that germinate after the initial product application. Product(s) must be applied consistent with label instructions and at the application timing and rates as outlined above. All claims must be submitted to the local Bayer Area Sales Manager on or before the end of April 2016 in order to qualify for coverage.

** Celsius is labelled for control of many broadleaf weeds.
