'Suggested timings only, use local weather to optimize applications; charts highlight periods of typical disease activity, some suggested treatments will treat multiple diseases. Always read and follow label instructions carefully. Maximum use rates and number of applications have been followed according to labels. 'Bipolaris leaf spot & melting out (aka Helminthsporium leaf spot & melting out) and Microdochium patch. 'Highlighted Tartan and Prostar applications are key applications for the Backed By Bayer® latry ring program. Mirage, Prostar and Tartan are preventative rates for fairy ring. Water in applications for best results; see Bayer Fairy Ring Solutions for more information. 'Leaf & sheath spot (aka R. zeae & mini ring). A 2(ee) has been submitted for Mirage, see the label. 'Nortica use rate is 70 lb/A and is labeled for cyst, lance, root-knot, sheath, spiral, sting and stunt nematodes; see application timing maps and instructions at www.backedbybayer.com/nortica for optimal use.
